Michael Page

New paintings by San Francisco based artist Michael Page.

Mankind has always struggled to control and occupy new land. Through domination and subsequent obliteration, a cycle of violence, sorrow, and hardship follow the path of power. As an observer trying to make sense of this, I felt the need to depict early settlers engulfed in troubled and dark times. They witness a backdrop of beauty, only to peer deeper into the shadows

for a more macabre truth. Life is about balance though, and for there to be evil, good must also exist. It is my feeling that once man forges a true relationship with not only itself, but with the land, a universe of abundance will prevail.
